

Conservation and Best Management Practices Eligible for ACAP Funding

* - High priority BMP

Agricultural Erosion & Sedimentation Plan (Ag E&S)*

Conservation Plan*

Manure Management Plan*

Nutrient Management Plan (NMP or 590)*

Animal Trails and Walkways*

Cover Crop*

Diversion*

Fence*

Fence (Streambank)*

Grassed Waterway*

Heavy Use Area Protection*

Lined Waterway or Outlet*

Riparian Forest Buffer & Maintenance*

Riparian Herbaceous Cover*

Roof Runoff Structure*

Roofs and Covers*

Stream Crossing*

Streambank and Shoreline Protection*

Subsurface Drain*

Terrace*

Vegetated Treatment Area*

Waste Storage Facility*

Watering Facility*

Access Road

Animal Mortality Facility

Composting Facility

Constructed Wetland

Critical Area Planting

Manure Separation Facility

Obstruction Removal

Other Water-Quality BMP

Pipeline

Pumping Plant for Waste Water Control

Silage Leachate Management

Sinkhole and Sinkhole Area Treatment

Soil Health Tests

Spring Development

Structure for Water Control

Underground Outlet

Waste Storage Facility Decommissioning

Waste Transfer

Water Well
